

Kidney Scan Diagnosis Report

Diagnosis Result

Diagnosis: Cyst
Confidence: 99.95%%

Condition Summary

Presence of a kidney cyst detected.

Detailed Analysis

A fluid-filled sac has been found in the kidney. While most kidney cysts are benign and do not cause symptoms, monitoring may be required for any changes in size or structure.

Medical Recommendations

Regularly monitor the cyst with ultrasound scans as advised by a healthcare provider. Maintain a healthy diet, stay hydrated, and avoid excessive salt intake. Seek medical advice if pain, swelling, or other symptoms develop.
